Re: DeVilbiss Automotive Refinishing - CVI Spray Gun

Dear Mr. Charpie:

This is in response to your letter dated October 16, 2007, (faxed on May 20, 2008) containing information regarding the above-referenced spray gun. Based on the information provided in the September, 2003, test report, we understand the above-referenced spray gun has a transfer efficiency more than 65 percent as long it is operated within the constraints or boundary conditions as stated in the report.

Thank you for your interest in air quality. If you have any questions, please call Ms. Louise A. Ngo, P.E., Technical Specialist, at (512) 239-1267, or write to her at the Texas Commission on Environmental Quality, Office of Permitting, Remediation, and Registration, Air Permits Division (MC-163), Austin, Texas 78711-3087.

Sincerely,

A handwritten signature in blue ink that reads "James B. Randall".

James B. Randall, P.E.
