RE: DeVilbiss GFG-670 "Plus" spray gun

Dear Mr. Charpie:

The Department is in receipt of your request for a determination that the DeVilbiss GFG-670 "Plus" spray gun achieves emission reductions equivalent to high volume low pressure (HVLP) or electrostatic spray. Based on information you provided, the Department is pleased to inform you that the DeVilbiss GFG-670 "Plus" spray gun is considered to achieve equivalent emission reductions under Regulation 24, Section 11, paragraph (c)(1)(v). This approval is based on the following conditions:

1. ITW Automotive Refinishing shall supply with each DeVilbiss GFG-670 "Plus" spray gun written notification that the maximum air pressure supplied to the spray gun shall not exceed 40PSIG.
2. ITW Automotive Refinishing shall supply each DeVilbiss GFG-670 "Plus" spray gun a gun-mounted pressure gauge clearly identifying the maximum allowable inlet air pressure of 40 PSIG, and a gun mounted air pressure regulating device.
3. ITW Automotive shall supply with each DeVilbiss GFG-670 "Plus" spray gun written notification that the gun mounted pressure gauge and air pressure gauge shall be attached to the spray gun, and be in good working condition, whenever the spray gun is in use.
4. This approval is only valid for the DeVilbiss GFG-670 "Plus" spray gun.

If you have any questions regarding this determination, please contact Deanna Morozowich at (302) 739-4791 in the Dover office.

Sincerely,

Raymond H. Malenfant
Program Manager
